PROFESSIONAL EXPERIENCE

Rexgate | Full-Stack Developer

Apr 2026 – Present | Remote

- Architected and developed the primary web platform using Next.js, TypeScript, and MongoDB, delivering a fast, responsive, and scalable user experience.
- Engineered a custom centralized CRM featuring dual-role interfaces (Admin Dashboard & Agent Dashboard) to manage website operations, leads, and client data.
- Implemented role-based access control (RBAC) enabling admins and agents to perform their specific operational tasks securely and efficiently.
- Integrated real-time data tracking and client management workflows to streamline agent productivity and overall platform administration.

Elso | eCommerce Developer

March 2026 – Present | Remote

- Developing and maintaining a custom Shopify storefront tailored for high-volume transactions.
- Engineered a real-time gold price calculation system using JavaScript, automating complex pricing workflows based on live market data.
- Streamlined the eCommerce checkout process, leading to higher user retention and lower cart abandonment rates.

Rexgate Immigration | Full-Stack Developer

Dec 2025 – Mar 2026 | Remote

- Architected a full-stack platform using Next.js, TypeScript, and MongoDB, delivering a fast and responsive user experience.
- Built and deployed an automated CRS scoring system to evaluate and rank user immigration profiles.
- Integrated Google Analytics and tracking tools to monitor user behavior and implement data-driven SEO improvements.

The Ignite Marketing | Full-Stack Developer

June 2025 – Nov 2025 | Dubai (Remote)

- Designed and built a fully responsive marketing website using Next.js and MongoDB.
- Implemented a comprehensive analytics setup using Google Analytics, Google Tag Manager, and Google Search Console for advanced tracking and performance monitoring.
- Implemented an SEO-friendly routing structure and component architecture, improving search visibility and audience reach.

BounceBye | Frontend Developer

Nov 2024 – Feb 2025 | RSM Solutions (Dhaka, Bangladesh) | rmsolutions.co

- Developed a real-time bulk email verification web application using Next.js, React, and Tailwind CSS.
- Used ShadCN UI components to build a clean, modern, and responsive data dashboard.
- Optimized API polling systems to efficiently handle bulk operations while maintaining a smooth, lag-free UI.

Elite Security | WordPress Developer

May 2024 – Aug 2024 | Dhaka, Bangladesh

- Developed a secure, fully responsive WordPress portal to optimize client onboarding and service discovery workflows.
- Improved Core Web Vitals and optimized database queries to enhance page load performance and strengthen security configurations.
